women merely players.

one man in his time plays many parts."

Shakespeare: As You Like It Act II

Pontiac Northern is a huge prop in creating a dramatic play with its students as actors. The brick and steel represent the curtains and backdrops, with the glass creating the lighting affects. This play may be viewed by those foreign to the school or the students themselves, watching and learning what they can do to improve themselves.

The play may be a tragedy, deeply felt when report cards are issued or when one is rejected by an organization. Hard work, conscientiousness, and dependability, to name a few can turn a tragedy into a comedy.

But the greatest tragedy of all is graduation, for this marks the completion of Act I in one's life play and the beginning of Act II. The stage has been set, the next act yet to come. Whether it will be a tragedy or comedy is up to you.

"He was indeed the glass Wherein the noble youth

Shakespeare: King Lear II

Think about the many virtues and qualities of your teachers, then look into a mirror. Do you find these qualities in your own image? What better pattern than this could one use in forming one's philosophies for future success?

There is indeed an art in instruction. To elevate thoughts, raise standards, and to encourage spiritual growth are a few tasks set before those in the teaching profession. Quality in quantity is required. It takes the aid of an inspiring staff of teachers to make a mere building into an institution of learning.

Good foundation for building a great future

These are days of choice and challenge: College. Business School. Special skill training. A job. Each choice offers its own special challenge. Each challenge will be filled with excitement and adventure. Each success will be its own reward. Your friends at GMC congratulate you and wish you success. And for those who desire, we open the door of employment opportunity at GMC. We are also anxious to help qualified students gain entry into General Motors Institute. But regardless of the choice you make, or the challenge you accept, we hope that you will pause for a moment to acknowledge thoughtfully the dual meaning of the mortarboard, which is, at once, the crown of achievement and the tool of the builder . . . and that you will then move on with pride toward that bright and wonderful future that surely lies ahead.

'Fair be all thy hopes, And prosperous be thy

Shakespeare: King Henry VII Act II

Graduation marks the completion of high school but only the beginning of education; for the quest of education is a never ending process. Education is offered in abundance, by colleges, by vocational institutions, and many others. All that is required is the curiosity to seek and the ability to learn.

A hopeful and energetic attitude may lead to prosperity in life and happiness in the future.

"COMMITTEE CONVENES!" . . . Organizing proper principles and habits throughout the school is the job of this Student Affairs Committee. L. to R. are S. Nichols, S. Gremore, C. Mihay, R. Card, L. Thompson, S. Heathman, R. McLaughlin, D. Davis, B. Stechow, N. Robinson, S. Hertel, J. Lampi, B. Greschover, C. Campbell, and Mr. A. J. Wilson.

"BE PATIENT!" . . . Waiting for the bus to start them on a weekend of fun are: Sally Heathman, Carl Romanelli, Linda Underhill, Ann Phillips, and Benny Johnson.

"DECISIONS! DECISIONS!" . . . A correct decision is the goal of Larry Bland and Sherry Gremore with the counseling — of Miss Lillian Jacobs.

"SUCCESS IS THE WORD" . . . These National Honor Society students are: 1st row—Jerry Curlee, Charles Hawkins, Joanne Dembinski, 2nd row—Glenda Wagner, Sandra Tinson, Carolyn McBurney, and Sharon Nelson.

"IT WON'T BE LONG NOW" . . . Receiving caps and gowns will be remembered as one of the most exciting events in their last year. L. to R. Don Chase, Earl Hewitt, Delores Kasten, Carol Mihay, Linda Tabor, and Ken Tysick.

"FLATTERING, AREN'T THEY" . . . The waiting of several months was worth it when their senior pictures arrived as their satisfied looks revealed. Dick McLaughlin, Pat Lund, Jim Heisler, Jan Lawrence, Marilyn Kelly, and Carreen McClements think so.

Participation in clubs gives a student a broad view of school activities. While having fun, one is learning how to cultivate friends and acquire an outgoing personality. Clubs are also educational as they give one a chance to learn many things — how to bake a cake or bandage a cut finger. Occasionally a club may act as a guide-post for choosing a vocation. Often one may have a chance to develop a skill important in swimming, bowling, skiing, and singing. By joining a club with full participation one is gaining a larger view of life through a small amount of effort.

ELECTRICALLY *Are you coming back for more education?*

*Getting a job? Establishing a home? What's all this got to do with electricity?
Just this: Whatever the future brings you, electricity will be there to help.*

For right now we are entering a whole new era of electric living. The home you start will be easier to take care of, more fun to live in, with help from electric appliances. Complete electric home heating, practical and convenient, is growing every day. Your job will be smoother, too, with electrically operated equipment and an increasing array of electronic devices. Even your education benefits from continuing research in many fields related to electricity. One day, you personally may help to create new and better ways to do things electrically.

So no matter who you are, where you are or what you're doing, your future will continue to be brighter, your life will be lighter through electricity.

"A piece of work so bravely done, so rich, that

it did strive in workmanship and value."

Shakespeare: Cymbelline Act II

Sports activities condition the mind as well as the body. Learning a skill or conditioning the body gives a person satisfaction when it is well done. After a hard day of absorbing knowledge in school it seems almost a pleasure to develop a skill by swimming or playing basketball. Also important is learning sportsmanship and team work. A good player is a good loser and always holds his temper when accidentally hurt by another player. A noble act of sportsmanship is giving a sincere compliment to a deserving opponent. Teamwork is essential in most sports because too many games can be lost by a person who wants to be a hero. Developing a good personality is a well earned prize for a good sportsman.

TBALL=

"THAT'S THE WAY" . . . Yes, Bill Sekulick demonstrates good form as he once again shows how Northern is able to be so victorious.

Shakespeare: Hamlet Act II

Coming from junior high school to senior high school is a big step. Developing the best quality of leadership, personality, and workmanship is the most important step in preparing for a successful school career. Doing anything well requires a complete achievement on the part of the student. Putting forth one's best efforts leaves one with the best of friends, scholarship, and extra-curricular activities. Teachers and students alike judge one by his achievements, so now is the time to achieve.

PONTIAC NORTHERN
SENIOR HIGH SCHOOL

As we close our yearbook and our school year, we realize that this scene shall be enacted innumerable times in the years to follow. Regardless of its annual occurrence it is unique to the people involved and for them it shall hold novelty and excitement.

As we depart, we are aware that we stand in our own light and the reflection we cast is that of our character. If we have achieved in our thoughts and conduct the statue of which we are capable, then we have attained renown.

WHY MORE TRAINING?

The Job Guide, published by the United States Department of Labor, gives this answer: "You should weigh carefully the long-run advantages offered by jobs you are considering against immediate gains."

"You should be aware of the great importance of education as a general anti-specific job asset. Technical or professional training received after leaving high school will give you definite advantages in seeking and finding a job. When advancement opportunities occur, preference is generally given to persons with superior educational qualifications—other things being equal."
